Making Connections

Name:_____

Title: Arachne

What I read Page #	Connections This reminds me … I remember …	My connection helps me understand the text because …
Pg. 73 p. 1	Arachne's appearance reminds me of a spider. Her eyes were light and her hair a dusty brown and was quick and graceful. She weaves.	The story is related to spiders and her appearance and her name is hinting that the story might have something to do with spiders.
pg. 73 p. 2	Everyone came from far and wide to come see her work. This reminds me of singers, bands, and artists.	People will usually travel to go see people who are talented at what they do.
pg. 74 p. 3	I remember one time when I was offended that someone thought I must have learned how to bake from my grandmother. I didn't. I learned on my own.	I understand how Arachne must have felt that she worked really hard on her own to build her weaving skills, so people can give someone else the credit for her talent.
